

Job Title: Programmer I - Programmer III

Location: Cockeysville, MD (Remote)

About the position:

We are looking for passionate programmers to join our growing team and design, develop, and maintain our industry leading weighing solutions. Our solutions demand talented professionals with experience and enthusiasm for designing and building web, mobile, and desktop experiences that demand high availability. We are looking for programmers with strong analysis, design, coding and debugging skills.

Responsibilities:

- Analyze requirements and develop solutions for our point-of-sale systems
- Collaborating with stakeholders and Team Members to develop specifications
- Develop efficient, effective, reliable, and maintainable code
- Improving, reviewing, and maintaining existing code

Applicant should have:

- Strong technical, analytical, and programming skills
- Proficiency with developing software with modern languages
- Ability to adapt and learn quickly
- Excellent technical verbal and written communication

Key Qualifications:

Understanding and familiarity with one or more of the following technologies:

- **.NET Core, .NET Framework**
- **VB, C#, Java, Python, C++**
- **t-sql**
- Web-based API
- **Cloud Services (Azure, AWS)**
- Source Control (**Git Hub**)

About us:

For over 30 years, Paradigm Software, L.L.C. has remained at the forefront of the weighing industry, delivering cutting-edge software solutions. By joining our team, you'll become part of a company that prioritizes leveraging the most advanced technologies available, supported by a team of highly skilled industry experts. At Paradigm Software, LLC, we're committed to promoting equal opportunities in the workplace, and we welcome candidates from diverse backgrounds.
