PARADIGM SOFTWARE®
WeighStation®

Job Title:	Programmer II	Location:	Cockeysville, MD (Remote)

ABOUT THE POSITION:

We are seeking a skilled and dedicated programmer who is passionate about designing, developing, and maintaining both on-premises and cloud-based solutions. The ideal candidate will bring proven experience in web technologies, C#, .NET Core, and cloud services. They will be proficient in SQL Server and have a strong understanding of RESTful APIs. The role requires an individual who can help design and implement scalable, secure, and high-performance applications.

In this position, you'll work with a passionate team of developers in an exciting, fast-paced setting, where you will directly contribute to the success of our team, company, and clients. If you're ready to make a meaningful impact and advance your career, we would love to hear from you.

KEY RESPONSIBILITIES:

- Design, develop, and help maintain high-quality cloud and on-premises solutions.
- Work closely with stakeholders to deliver meaningful solutions.
- Help continually improve development processes, tools, and methodologies.
- Conduct code reviews to ensure high standards.

KEY QUALIFICATIONS:

- **Experience in C# and .NET Development:** Hands-on experience in C# programming and .NET framework development.
- **Web Technologies:** Proficient in HTML, CSS, and JavaScript with a strong understanding of modern web development practices and frameworks.
- **RESTful API Development:** Experience designing, building, and maintaining RESTful APIs.
- **Microsoft Azure:** Experience with Azure services including Azure App Service, Azure Storage, Azure SQL/Azure Managed Database, and Azure Functions.
- **Blazor and Web Assembly:** Familiarity with Blazor and/or Web Assembly is a significant advantage.
- **Database Management:** Proficient in SQL Server, with the ability to write complex queries, develop stored procedures, and optimize database performance.
- **Application Design:** Ability to design and implement scalable, secure, and high-performance solutions.
- **Collaboration and Communication:** Excellent teamwork and communication skills
- **Problem-Solving Skills:** Strong analytical and problem-solving abilities
- **Educational Background:** Bachelor's or Master's degree in Computer Science, Information Technology, or equivalent professional experience.
- **Certifications:** Relevant certifications (e.g., Microsoft Certified: Azure Developer Associate, Microsoft Certified: Azure Solutions Architect Expert) are a plus.
