13th Annual User Conferences

Overview

We are excited to announce our regional user conference dates this year as a result of feedback received from our customers. We will be condensing the conference this year to a one-day event. The User Conference has proven to be beneficial for customers who are planning to upgrade to CompuWeigh 6 and for customers who have upgraded and looking for an overview and to ask questions that have come up since implementation. By having current and potential customers at the conference will provide for great discussions and talking points regarding what went well and what could be improved from the customer's perspective and from Paradigm's perspective.

This year's conference will include the following:

Company Status/Future Plans/Customer Growth

CompuWeigh 6 Presentation

Targeted items:

- Overview of WeighStation
- Setting up devices
- Overview of CompuWeigh
- Quick Search
- Health Monitoring Service
- Batch Reporting
- Options to handle "Skip Out" customers
- Benefits of collecting Deposits
- Posting Enhancement process (replaces check for missing trans)
- Messenger
- Setting up a replacement computer
- Modules
- Recommended "Preparation Process" for customers upgrading to CW6
- Others topics as questions from the participants arise

Open Forum

- Open forum for customer suggestions, questions about existing operations and requests for new features

Lunch and Refreshments will be provided
